Project Experience

Sift, Recipe Search Vue.js Web-App
github.com/bpswim90/sift

- Users can search for, filter, and save recipes from their favorite sites and blogs on the internet
- Responsive design adapts to various screens
- Built with Vue.js, HTML, CSS, Bootstrap, Firebase, and the Edamam API for recipe search

GreenHouse, Plant Tracking Java Web-App
github.com/bpswim90/plant-tracker

- Users can keep track of when they last watered their houseplants
- App displays an alert when a plant is due to be watered
- Built with Java, Spring, Hibernate, Thymeleaf, MySQL, HTML, CSS, and Bootstrap

Work Experience Highlights

Artisanal Baker, Comet Croissanterie
January 2014 - Present | St. Louis, MO

- Work with a team of bakers to produce technically difficult products such as croissants, macarons, and layer cakes from scratch
- Interact with customers to provide a friendly and memorable experience, as well as educate about our products and process

Visual Artist & Designer, Self-Employed
etsy.com/shop/billypaulsen

- Drawing, painting, photography and design work
- Sell works online on etsy.com and handle all aspects of operation: production, sales, shipping, and communicating with customers
- Use Illustrator, Photoshop, and Rhinoceros for 2D and 3D design work
